

## Cold Lunch Policy

It is the practice of Immanuel Lutheran School that students participate in the hot lunch program in order to sustain the vitality of the government funded program. In the rare situation of a severe food allergy or medical necessity a student may bring a cold lunch if the hot lunch coordinator and school principal determine the allergy cannot be accommodated to through the hot lunch program. The allergy and restrictions must be presented to school in the form of a medical diagnosis/note. Students requiring cold lunch will be encouraged to bring a balanced meal with five components.
